SAMI BIN AYYAD GROUP · عيادبن سامي مجموعة

Selected Multi-Sector Project Case Studies

Technical Challenges, Engineered Solutions & Verified Commercial Outcomes

Corporate Delivery Track Record

Key Document Highlights & Verified Scope

- Case 01: Fast-Track Commercial Complex (Construction & MEP Integration)
- Case 02: Industrial Waste-to-Energy Dry Fermentation (Environmental Alliance)
- Case 03: High-Volume FOB Classic Shirt Export Program (Apparel Division)
- Case 04: International Single-Origin Olive Oil Export Chain (Agri-Food Division)

Official Verified Operational Benchmarks

1977	2023	4	39
Foundational Heritage	Unified Corporate Group	Integrated Sectors	Specialized Services

Case Study 01: Fast-Track Commercial Complex

Execution Under Tight Urban Constraints with Zero Structural Non-Conformance

CONSTRUCTION DIVISION

Commercial Tower & Banking Hall (New Cairo)

Client Requirement: Complete structural execution and MEP commissioning in 14 months.

Technical Challenge: Complex subterranean groundwater conditions and congested urban site logistics.

Engineered Solution: In-house technical office implemented 3D BIM clash detection and deep dewatering systems, pouring over 12,000 m³ of high-strength concrete with synchronized day-night delivery rotations.

Outcome: Delivered 18 days ahead of schedule, fully inspected and approved by statutory civil protection authorities.

Case Study 02: Industrial Agro Waste-to-Energy

RENERGON RSD Technology Deployment Converting Farm Manure into Power

ENVIRONMENTAL DIVISION

Biogas & Bio-Compost Facility Implementation

Client Requirement: Eliminate 80 tonnes/day of agro-livestock waste while offsetting plant power bills.

Engineered Solution: Deployed modular RSD dry anaerobic digestion digesters. The patented technology digest organic fractions at thermophilic temperatures with zero process wastewater.

Outcome: Generates 1.2 MW clean electric power fed into factory grid while yielding 35 tonnes/day of pasteurized high-nitrogen bio-fertilizer.
