Core Contracting & Development Mandate

Egyptian Code & ISO 9001 Compliant

Coordinating civil, architectural, electromechanical (MEP), and specialized installations under clear technical governance.

SAMI BIN AYYAD GROUP Contracting & Real Estate Development executes commercial, healthcare, residential, industrial, and oil & gas civil infrastructure projects across Egypt and regional corridors. Our approach starts with clear client requirements, scope coordination, and adherence to approved engineering specifications.

Corporate Attribution Notice: The 2013–2024 documented project record (57+ projects, +EGP 540M turnover) and the real estate advisory portfolio (400+ developments, 200+ developer partnerships, 5B EGP since 2018) represent verified foundational executive and sector track records consolidated within the unified Group (est. 2023).

12 Specialized Engineering & Contracting Disciplines

Multi-Disciplinary Civil, MEP, Medical & Oil/Gas Capabilities

Full scope from deep geotechnical works to high-specification healthcare and luxury finishing.

Structural, Architectural & MEP Core Scopes

Turnkey EPC Contracting

- General Contracting & Structural Works: Turnkey concrete skeletons, deep foundations, earthworks, retaining walls & subterranean water tanks.
- Electromechanical Systems (MEP): Medium/low-voltage power substations, central chiller HVAC, clean-agent & sprinkler fire suppression, elevators & BMS.
- Healthcare & Medical Fit-Out: Surgical operating theatres, ICU zones, medical gas networks, radiation shielding & ambulance facility modernizations.
- Oil & Gas Civil Infrastructure: CNG/Fuel stations (GASTEC/T-Oil), gas pressure regulator chambers (NAC), heavy compressor pads & 100km pipeline protection slabs (GASCO).
- Architectural Facades & Luxury Fit-Out: BIM 2D/3D shop drawings, curtain wall glazing, GRC cladding, marble, acoustic ceilings & turnkey corporate interiors.

Six-Stage Project Execution Methodology

Accountable Governance

- 01. Project Assessment: Site survey, geotechnical review & operational scope mapping.
- 02. Scope & Value Engineering: BIM clash detection, working shop drawings & BOQ alignment.
- 03. Procurement & QA: Certified mill certificates, concrete slump tests & vendor approval.
- 04. Coordinated Execution: Multi-trade site supervision under strict HSE protocols.
- 05. Testing & Commissioning: Hydrostatic pressure tests, MEP balancing & civil defense signoff.
- 06. Handover & Post-Care: As-built dossiers, maintenance manuals & official handover certificates.

Real Estate Advisory & Sectors Served

Institutional Asset Management & Regional Development Coverage

Connecting technical execution with commercial real estate viability.

Sector Category	Representative Project Types	Key Institutional Clients / Counterparts
Healthcare & Medical	Medical towers, ambulance hubs, imaging & sterilization suites	Egyptian Ambulance Organization & Private Medical Sectors
Oil, Gas & Utilities	CNG stations, pipeline protection corridors, regulator stations	GASCO, GASTEC, Petrobel, General Petroleum Company
Residential Compounds	Standalone luxury villas, twin houses & gated developments	LAVISTA Developments, Armed Forces Engineering Authority
Commercial & Admin	Banking headquarters, retail malls & educational buildings	SIAC Engineering & Corporate Institutional Investors
