Strategic Alliance: RENERGON International AG (Switzerland)

Patented RSD Dry Fermentation

Converting unsegregated organic waste streams into clean power, biogas, biochar & bio-fertilizer.

Operating in formal technological partnership with RENERGON International AG (Switzerland), ENVIROTAQA (SAMI BIN AYYAD GROUP) deploys modular RSD (RENERGON Simultaneous Digestion) dry anaerobic fermentation technology across municipal, agricultural, and industrial organic waste.

Delivery Model Transparency: Environmental Impact Assessments (EIA/ESIA), Law 202/2020 compliance, GHG Scopes 1–3 audits, and EU CBAM readiness are executed directly in-house, while utility-scale Waste-to-Energy, ZLD water treatment, and C&I Solar EPC installations are delivered with accredited technical consortia.
