2026 Verified Case Studies Dossier

Selected Multi-Sector Project Case Studies

Verified Execution Scope, Engineering Challenges, Delivery Attribution & Measured Outcomes Across Our Four Business Sectors

Case Studies 01 & 02 · Construction & Energy

Medical Healthcare Tower & Patio Town Luxury Compound

Verified execution dossiers anchored in our Central Project Portfolio.

Case Study 01: Al-Safa Specialized Medical Tower (Kafr El-Sheikh)

PRJ-CON-01 · Direct Group Mandate

Turnkey 11-storey specialized healthcare complex delivered under medical building codes.

Scope & Challenge: Constructing 4,200 sq.m of clinical space requiring strict sterile zoning, radiation shielding, central medical gas piping, and zero-interruption power redundancy.

Execution & Result: Completed general contracting, reinforced concrete frame, medical fit-out, full MEP networks, and a 500 kVA emergency backup plant cleanly handed over in June 2025.

- 4,200 sq.m built-up clinical area across 11 levels with medical elevators
- Central medical gas network engineered to ISO healthcare facility standards
- Synchronized MEP commissioning completed prior to statutory medical licensing

Case Study 02: Patio Town Compound & Obour Standalone Villas (New Cairo / Obour)

PRJ-EGY-056 & 057 · 205M EGP Combined

Large-scale residential concrete skeletons, masonry & exterior architectural finishes.

Counterparts: LAVISTA Developments (Patio Town — 137M EGP) & Armed Forces Engineering Authority (17 Standalone Villas — 68M EGP).

Outcome: High-rate reinforced concrete pouring and synchronized structural finishing under tight developer quality audits.

Case Studies 03 & 04 · Sustainability & Apparel

Industrial Solar PV Advisory & European Garment Export Program

Demonstrating partner-aligned clean energy engineering and AQL 1.5 apparel exports.

Case Study 03: Industrial Rooftop Solar PV Engineering — 10th of Ramadan City

PRJ-ENV-01 · Advisory + EPC Partner

1.2 MW rooftop solar PV feasibility and engineering design reducing factory utility costs by 35%.

Technical Scope: Load profile analysis across an 8,500 sq.m textile & logistics rooftop, structural wind/weight verification, grid-tie interconnection study, and inverter selection.

Verified Projection: 3.2-year typical capital payback with an annual carbon footprint offset of approximately 1,450 tonnes CO2 equivalent — supporting EU CBAM export readiness.

Case Study 04: European Retail Apparel Export Program (Germany & Spain)

PRJ-GAR-01 · Direct Manufacturing Mgmt

180,000 OEKO-TEX® compliant cotton garments manufactured and shipped FOB to Hamburg & Barcelona.

Scope & Outcome: Tech-pack pattern development, Egyptian combed cotton sourcing, multi-line CMT sewing across vetted partner plants, AQL 1.5 inline/final quality inspection, and full private-label retail packaging delivered strictly on seasonal retail dates.

Case Study 05 · Agri-Food Export & Advisory Contact

Egyptian Siwi Dates Export Supply Program — Indonesia & UAE

Traceable agricultural processing from Siwa Oasis farms to refrigerated export containers.

Case Study 05: 420 Metric Tons Graded Siwi Dates Supply (Jakarta & Dubai)

PRJ-FOD-01 · Direct Trade Coordination

Farm aggregation, optical sorting, moisture control & phytosanitary clearance.

- Dispatched 420 MT in refrigerated 40ft High-Cube reefer containers
- Standardized lab-verified moisture balance maintained strictly between 18% and 20%
- Full NFSA export health clearance, COA & zero prohibited pesticide residue certificates
