SAMI BIN AYYAD GROUP · عيادبن سامي مجموعة

Construction & Real Estate Capabilities Profile

Comprehensive Engineering, Contracting & Infrastructure Portfolio

Construction & Real Estate

Key Document Highlights & Verified Scope

- 12 Comprehensive Engineering & Contracting Disciplines
- 57 Documented Projects Delivered Across Egypt
- 540+ Million EGP Registered Historical Delivery Volume
- 6-Stage Project Delivery Framework from Feasibility to Handover

Official Verified Operational Benchmarks

1977	2023	4	39
Foundational Heritage	Unified Corporate Group	Integrated Sectors	Specialized Services

Official Corporate Documentation for International Procurement, Investors & B2B Commercial Partners

2026 Engineering Edition | Doc Ref: SBA-CONST-CAP-2026

1. Engineering Disciplines & Delivery Scopes

Integrated Civil, Structural, MEP, and Finishing Capabilities

DISCIPLINES 01 & 02

General Contracting & Structural Works

Turnkey building construction, reinforced concrete skeletons, deep foundation works, and structural retrofitting.

Complete building lifecycle delivery for public utility, commercial, residential, and industrial complexes compliant with the Egyptian Code of Practice.

- Turnkey EPC execution and project coordination
- Deep foundation excavation, soil replacement & compaction testing
- High-grade reinforced concrete pouring with certified slump testing
- Specialized subterranean water tanks, vaults & retaining structures

DISCIPLINES 04 & 05

Electromechanical Systems (MEP) & Infrastructure

Integrated electrical power, HVAC central air systems, fire suppression, low-current & utility networks.

Turnkey MEP engineering for critical infrastructure, healthcare environments, commercial towers, and industrial plants with complete balancing and statutory safety approvals.

- Medium and low-voltage distribution networks and substations
- Central chiller plants, chilled water piping and duct fabrication
- Automatic sprinkler and clean agent fire suppression networks
- Potable water transmission, sewage lift stations, and stormwater drainage

DISCIPLINES 03 & 11

Architectural Works & Luxury Fit-Out

BIM 2D/3D shop drawings, curtain wall facades, GRC cladding, acoustic treatment, and turnkey interior design.

Technical office drafting coordinated working drawings alongside on-site master finishing craftspeople, delivering premium spaces for corporate headquarters and upscale developments.

2. Six-Stage Project Execution Methodology

Rigorous Delivery Governance and Quality Assurance

Phase	Stage Name	Key Engineering Activities	Client Deliverable
Phase 1	Initiation & Feasibility	Site surveys, geotechnical analysis, budget models	Feasibility Dossier & Charter
Phase 2	Design & Value Engineering	BIM modeling, shop drawings, MEP clash detection	Approved Working Drawings
Phase 3	Procurement & Supply Chain	Vendor qualification, material approvals, QA tests	Procurement Schedule & Submittals
Phase 4	Site Construction Execution	Civil works, MEP installation, safety protocols	Daily Logs & Progress Milestones
Phase 5	Testing & Commissioning	Pressure testing, MEP balancing, fire safety signoff	Commissioning Test Certificates
Phase 6	Handover & Post-Care	As-built documentation, facility training, warranty	Final Handover Certificate

Corporate Contact & Business Inquiry

Direct communication desk for partners, clients, and institutional inquiries
